

MEET MRS. SANTOLLA

Hello! My name is Karissa Santolla, and I am beyond excited to be your 7th grade ELA teacher!

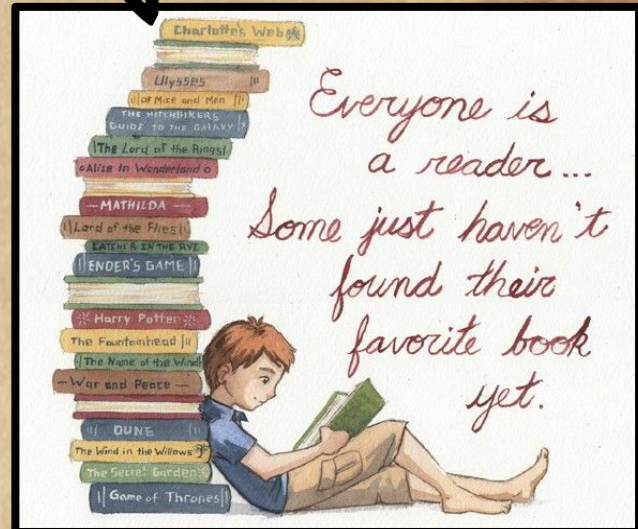

Educational Background

I graduated from Stockton University in 2016 with a concentration in K-6 elementary education, middle school specializations in English and Mathematics, and I am highly qualified in Science and History. One of my favorite things to do is read, so being able to share my love of books with you is something I am really looking forward to! I believe the most efficient and positive way for students to learn is to take responsibility for their own learning. I believe the environment I have created will be a safe, friendly, engaging, and student-centered classroom- all to promote the best thinking and performance.

The best way to contact me is through the MTMS school email provided below:
